

I listen to K-LOVE on 90.1 FM in my city of Little Rock, AR and I believe it would be detrimental to our community to displace K-LOVE by an LPFM broadcaster w/other programming. K-LOVE radio station is not a typical station that serves to entertain people only. K LOVE provides hope and encouragement to its listeners and changes lives every day as a result. Many people have been on the brink of suicide and depression and KLOVE offers 24 hr counseling. K LOVE reaches out to people in need and also encourages its listeners to help people who are in need- from the suicidal to the homeless. I think the government should be so glad that there is a station like K-Love that is doing so much good for the community instead of contributing to the current problems in our society. PLEASE DON'T CHANGE THE PROGRAMMING- PLEASE PLEASE KEEP KLOVE ON THE AIR. Thank you, Lisa Tumblison
